Applicant's election without traverse of Group I in the reply filed on 10/12/2004 is acknowledged.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Harringer et al. (U.S. Patent 4,681,208).

Harringer et al. show a fixing device 46 circuit boards 10 having belts 51 and 52 with supports for the belts, a transport motor 60 and a power transmission mechanism connected between the motor and the belts.

Re claim 2, the motor can be considered as linked when driven and unlinked when not being driven.

Claims 3-8, 12 and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9 and 10 are allowed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication should be directed to James R Bidwell at telephone number (703)308-1144.
